Good Samaritan Hospital Stereotaxis Cath Lab

*To be the most professional,
high quality, customer driven
General Contractor in
Greater Cincinnati.*

Good Samaritan Hospital

Stereotaxis Cath Lab

Cincinnati, OH

Construction Cost : \$350,000

Architect: PFB Architects

This 2000 square foot multi-phase project converted an existing Cardiovascular Cath Lab into a Stereotaxis Cath Lab. Construction schedule was five months and the project was completed on time. Good Samaritan Hospital is one of only 40 sites nationally to use Stereotaxis technology. The results are safer, softer, higher quality patient outcomes with shorter recovery times.
