

St. Xavier Church Parish Center

A great deal of care and effort went into the design and construction of the St. Xavier Church Parish Center Renovation Project. RJ Beischel Bldg Co. was selected as the construction manager for the project, which renovated the parish office and created an event center for gatherings and corporate meetings. The project added a handicap entrance and plaza using sandstone and curtain wall systems. The interior renovation incorporated bamboo floors and ceilings, glass operable wall systems and reuse of existing building elements including stone,
